**Re: In the Matter of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I need broadband for my businesses. I need to upload lots of audio, video and photo files for use by clients, for sale to the public, and for promotion / advertising.

Competition in business is good. We need it in our ISPs so that the giants don't get complacent and provide poor service at high prices.

We need true high-speed broadband, without throttling access - to remain competitive with other countries.
